## ACCESSING YOUR VOICEMAIL FROM OUTSIDE THE OFFICE

Call the main line, transfer to your extension . When you hear your greeting, press the \* key, enter your mailbox number then your passcode and press # key.

## SAMPLE VOICEMAIL GREETINGS

### MAILBOX GREETING

This greeting will be played when a call is transferred directly to your mailbox. Also, if a caller has entered your extension number from an auto-attendant or dialed your direct number and no one answered the call.

“Hello, this is (first and last name). I am unavailable at this time, please leave a brief message, your name and telephone number and I will return your call as soon as possible. Thank you!”

Button	Action
 (Up)	Provides volume control.
 (Down)	Scrolls through feature options.
 (Speaker)	Activates Hands-free Mode. Activates features.
 (Mute)	Mutes the microphone during a call.
 (Directory)	Activates the contact and feature Directory.
 (Special/Infinity)	Activates features while on a call. The (Special/Infinity) key does not cancel features. To cancel features, press the Star button (*).
 (Redial)	Calls the last external number dialed. You cannot redial internal numbers.
 (Hold)	Places the current call on hold. Left/Backspace when entering Dial keypad characters.
 (Transfer)	Transfers the current call. Right/Forward when entering Dial keypad characters.
 (Message)	Connects to voice mailbox and notifies when you have messages. Toggles between Alpha Mode and Numeric Mode when entering Dial keypad characters.

**TO TRANSFER A CALL:** While the caller is on the line press the **TRANSFER** key. Enter their 4 digit extension number and either announce the call or simply hang up. To return to the caller and not transfer the call, do not hang up, simply press the flashing line key.

**TO REDIAL A TELEPHONE NUMBER:** Lift handset or handset down, press the **REDIAL** key. The system will automatically choose a line.

**TO PLACE A CALLER ON HOLD:** While on the call simply press the **HOLD** key (the red button). To retrieve the caller, press the flashing **CALL** key. After a caller has been on hold for 60 seconds the call will re-ring your telephone.

**CONFERENCE CALLS:** With the first party on the telephone press the **CNF** key (the caller will automatically be placed on hold). Access a second line and call the second party to be added or an internal extension number then press the **CNF** key (repeat this step to add one more caller, the maximum callers that can be on a conference call is yourself and 3 others). Press the **CNF** key twice to link all callers. The display screen will confirm that the conference call has been successfully created "**CNF IN PROGRESS**" will appear on the display screen. To place a conference call on hold, press the **HOLD** key. To return to the conference call press the **CNF** key once.

**HANGING VOLUME LEVELS:** This telephone has **5 different volume levels** (ringer, handset, headset, background music and external speaker). To change these volume levels, your telephone must be in that active state. Use the up arrow and down arrow to adjust and press the volume arrows simultaneously to save.

**TO SELECT A RING TONE:** With the handset in the cradle, press the **infinity** key and enter **398** (the tones are 1-9 or 0 for ringer off). Once you have selected a tone press the **#** key to save.

## TO RECORD YOUR PERSONAL GREETING:

- ◇ Dial extension 2500 and press \*, enter your mailbox number and passcode then press #.
- ◇ Press 4 for "personal options"
- ◇ Press 1 for "personal greeting"
- ◇ Press 1 for "primary greeting"
- ◇ Press 3 to record and # to stop recording and # to save
- ◇ Make sure you "**ACCEPT**" the greeting after it is recorded.

## LISTENING TO YOUR NEW AND SAVED VOICE MAIL MESSAGES

- ◇ Dial 2500, enter your mailbox number followed by your passcode then press # OR press the "MESSAGE ENVELOPE" key for new messages and follow the prompt.
